Subject:

Application for Summer Internship 2026 — Computer Science Undergraduate

Date:

26 March 2026

Greeting

Dear Ms Kapoor,

Opening

I hope you are doing well. My name is Charchit Jain, and I am a third-year undergraduate student pursuing a Bachelor of Technology in Computer Science at the National Institute of Technology, Bhopal. I am writing to express my sincere interest in the summer internship opportunities available at TechBridge Solutions for the period of May–July 2026.

Skills & Background

Throughout my academic journey, I have developed a strong foundation in software development, data structures, and machine learning. I have successfully completed projects in Python-based web development and predictive analytics, one of which was recognised at our institute's annual technology showcase. Beyond coursework, I have contributed to an open-source repository and completed an online certification in cloud computing through Google.

Why This Company

I am particularly drawn to TechBridge Solutions because of your commitment to building scalable, impact-driven technology products and your recognised investment in mentoring young talent. I believe that an internship with your organisation would offer an invaluable opportunity to apply my academic knowledge to real-world challenges while growing professionally under expert guidance.

Call to Action

I have attached my résumé and a brief portfolio for your reference. I would welcome the opportunity to

discuss how my skills and enthusiasm align with your internship programme. Please feel free to reach

out via email or phone at any time that is convenient for you.

Closing

Thank you very much for your time and consideration. I look forward to the possibility of contributing to

the TechBridge team this summer.

Sign-off

Yours sincerely,

Harsh Jain

B.Tech Computer Science, Year 3
